A pair of well-grown active studio monitors of 1,000 watts, made for larger studios where it is not enough with a couple of small dwarf monitors. But Genelec also wants to meet the needs of technicians looking for a pair of near-field monitors with deeper bass and greater dynamic surplus than those found in the smallest speakers.

Genelec 's choice for vented, or reflex, enclosures dates back to the S30 model, the first Genelec product from 1978. Port performance has been improved and refined over the years with the aim to increase the woofer 's low frequency extension and sound pressure level capability to provide outstanding bass articulation and definition.

At the smallest end of the Genelec 8000 bi-amplified monitor series is the 8010A. Though relatively light (1.5kg each), the 8010As are solid thanks to the die-cast aluminium enclosure, with metal driver grilles to prevent damage in transit. Portability is key, with power and input sockets neatly tucked in at the rear.

The Genelec 8050 Studio Monitor is the modern classic 2-Way 8-inch studio monitor. Having inspired numerous copies from it's predecessor, the 1031A, Genelec sought to produce a better and more perfect monitor built to utilize the best construction techniques available as well as put several new cutting edge developments from Genelec to work.
