Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Originally published in 1960, this analysis of all of Locke's publications quickly became established as the standard edition of the Treatises as well as a work of political theory in its own right.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

The classic study of human nature which depicts the degeneration of a group of schoolboys marooned on a desert island.

A revised edition of the classic study of American politics from the Founding Fathers to FDR.

The bestselling phenomenon and inspiration for the award-winning film. Earthy, magical, and utterly charming, this tale of family life in turn-of-the-century Mexico blends poignant romance and bittersweet wit. This classic love story takes place on the De la Garza ranch, as the tyrannical owner, Mama Elena, chops onions at the kitchen table in her final days of pregnancy. While still in her mother's womb, her daughter to be weeps so violently she causes an early labor, and little Tita slips out amid the spices and fixings for noodle soup. This early encounter with food soon becomes a way of life, and Tita grows up to be a master chef, using cooking to express herself and sharing recipes with readers along the way.

After her "stand-in mother," a bold black woman named Rosaleen, insults the three biggest racists in town, Lily Owens joins Rosaleen on a journey to Tiburon, South Carolina, where they are taken in by three black, bee-keeping sisters.

The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America.

The first and most terrifying monster in English literature, from the great early epic Beowulf, tells his own side of the story in this frequently banned book. This classic and much lauded retelling of Beowulf follows the monster Grendel as he learns about humans and fights the war at the center of the Anglo Saxon classic epic. This is the book William Gass called "one of the finest of our contemporary fictions."
