Will the seeds she's planted in the garden with her brothers and sisters grow into fruit and veg like everyone promised? Why does it seem as if Grandma doesn't like them sometimes? A HIGHLY ANTICIPATED, BEST BOOK OF AUGUST SELECTED BY * POPSUGAR * E! NEWS * LIFESAVVY * CRIMEREADS * AND MORE! "Exceedingly entertaining." —The New York Times "Umbrella Academy meets Tana French. Dark, claustrophobic, and beautifully written." —Andrea Bartz, author of We Were Never Here From the author of The Winter Sister and Behind the Red Door, a family obsessed with true crime gathers to bury their

patriarch—only to find another body already in his grave. At twenty-six, Dahlia Lighthouse is haunted by her upbringing. Raised in a secluded island mansion deep in the woods and kept isolated by her true crime-obsessed parents, she is unable to move beyond the disappearance of her twin brother, Andy, when they were sixteen. After several years away and following her father's death, Dahlia returns to the house, where the family makes a gruesome discovery: buried in their father's plot is another body—Andy's, his skull split open with an ax. Dahlia is quick to blame Andy's murder on the serial killer who terrorized the island for decades, while the rest of her family reacts to the revelation in unsettling ways. Her brother, Charlie, pours his energy into creating a family memorial museum, highlighting their research into the lives of famous murder victims; her sister, Tate, forges ahead with her popular dioramas portraying crime scenes; and their mother affects a cheerfully domestic facade, becoming unrecognizable as the woman who performed murder reenactments for her children. As Dahlia grapples with her own grief and horror, she realizes that her eccentric family, and the mansion itself, may hold the answers to what happened to her twin.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild.

Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

For Griffin, all paths, all memories, converge at Cape Cod. The Cape is where he took his childhood summer vacations, where he and his wife, Joy, honeymooned, where they decided he'd leave his LA screenwriting job to become a college professor, and where they celebrated the marriage of their daughter Laura's best friend. But when their beloved Laura's wedding takes place a year later, Griffin is caught between chauffeuring his mother's and father's ashes in two urns and contending with Joy and her large, unruly family. Both he and she have also brought dates along. How in the world could this have happened? By turns hilarious, rueful, and uplifting, *That Old Cape Magic* is a profoundly involving novel about marriage, family, and all the other ties that bind.

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.
