and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

This volume addresses the family situation in Japan and Germany. Gender-segregated labor markets and precarious employment patterns bear detrimental consequences for the socioeconomic capacity to maintain family households and to have children. By applying a gender-sensitive approach, this volume's focus is on the impact of family law, family policy , and family support measures. Scholars from Japan and Germany examine differences and characteristics of social security legislation, intergenerational support systems, single-parent families, inequality among households and poverty situations, local domestic and care service provision, female labor market participation, parental leave systems, organization of
