CCNP Route Lab Manual with Solutions - Config Router

Switch(config-if)# ip address 192.168.1.2 255.255.255.0 The 'no switchport' command enables native layer 3 functionality just like an Ethernet port on the router performs. This brings us to end of this article in which we covered Layer 3 switches and basic configuration of a Layer 3 switch.

Cisco CCNA – Layer 3 Switches – CertificationKits.com

Erasing and Reloading the Switch For the majority of the labs in CCNA 3 and CCNA 4 it is necessary to start with an unconfigured switch. Use of a switch with an existing configuration may produce unpredictable results. These instructions allow preparation of the switch prior to performing the lab so previous configuration options do not interfere.
