Tales from the Half-Continent is the fourth overall book by D. M. Cornish in the Monster Blood Tattoo series. It contains two stories set in the Half-Continent which are not directly related to the events of the trilogy. One of these is an expanded version of The Corsers' Hinge, which was first published in January 2010 in the anthology Legends of Australian Fantasy.

Written in the same Dickensian style as his previous books, Tales from the Half-Continent ushers the reader on a journey through a fantasy world that is reminiscent of 17thCentury Europe – if, that is, Europe had been populated by monsters, bogles, other strange and terrifying creatures that some worship as deities, and had been in possession of sense-enhancing technologies.

Rossamund has exchanged Winstermill and the dangerous life of a lamplighter for Brandenbrass and an even more dangerous life as factotum to the aristocratic monsterslayer, Europe. Fear and self-doubt must wait, however, as he plunges headlong into the fulgar's day-to-day life of political manoeuvring, high-society parties and well-paid monsterhunting. But whispers and rumours about her new factotum place Europe herself in danger, and now Rossamünd and the Branden Rose will face the ultimate battle against their enemies, the black-hearted schemers who would destroy them both.

The Second World War might have officially ended in May 1945, but in reality it rumbled on for another ten years... The end of the Second World War in Europe is one of the twentieth century's most iconic moments. It is fondly remembered as a time when cheering crowds filled the streets, danced, drank and made love until the small hours. These images of victory and celebration are so strong in our minds that the period of anarchy and civil war that followed has been forgotten. Across Europe, landscapes had been ravaged, entire cities razed and more than thirty million people had been killed in the war. The institutions that we now take for granted - such as the police, the media, transport, local and national government - were either

entirely absent or hopelessly compromised. Crime rates were soaring, economies collapsing, and the European population was hovering on the brink of starvation. In *Savage Continent*, Keith Lowe describes a continent still racked by violence, where large sections of the population had yet to accept that the war was over. Individuals, communities and sometimes whole nations sought vengeance for the wrongs that had been done to them during the war. Germans and collaborators everywhere were rounded up, tormented and summarily executed. Concentration camps were reopened and filled with new victims who were tortured and starved. Violent anti-Semitism was reborn, sparking murders and new pogroms across Europe. Massacres were an integral part of the chaos and in some places – particularly Greece, Yugoslavia and Poland, as well as parts of Italy and France – they led to brutal civil wars. In some of the greatest acts of ethnic cleansing the world has ever seen, tens of millions were expelled from their ancestral homelands, often with the implicit blessing of the Allied authorities. *Savage Continent* is the story of post WWII Europe, in all its ugly detail, from the end of the war right up until the establishment of an uneasy stability across Europe towards the end of the 1940s. Based principally on primary sources from a dozen countries, *Savage Continent* is a frightening and thrilling chronicle of a world gone mad, the standard history of post WWII

Europe for years to come.

A gripping history of the polar continent, from the great discoveries of the nineteenth century to modern scientific breakthroughs Antarctica, the ice kingdom hosting the South Pole, looms large in the human imagination. The secrets of this vast frozen desert have long tempted explorers, but its brutal climate and glacial shores notoriously resist human intrusion. Land of Wondrous Cold tells a gripping story of the pioneering nineteenth-century voyages, when British, French, and American commanders raced to penetrate Antarctica's glacial rim for unknown lands beyond. These intrepid Victorian explorers—James Ross, Dumont D'Urville, and Charles Wilkes—laid the foundation for our current understanding of Terra Australis Incognita. Today, the white continent poses new challenges, as scientists race to uncover Earth's climate history, which is recorded in the south polar ice and ocean floor, and to monitor the increasing instability of the Antarctic ice cap, which threatens to inundate coastal cities worldwide. Interweaving the breakthrough research of the modern Ocean Drilling Program with the dramatic discovery tales of its Victorian forerunners, Gillen D'Arcy Wood describes Antarctica's role in a planetary drama of plate tectonics, climate change, and species evolution stretching back more than

Acces PDF Tales From The Half Continent Monster Blood Tattoo 3 5

thirty million years. An original, multifaceted portrait of the polar continent emerges, illuminating our profound connection to Antarctica in its past, present, and future incarnations. A deep-time history of monumental scale, *Land of Wondrous Cold* brings the remotest of worlds within close reach—an Antarctica vital to both planetary history and human fortunes.

This unforgettable debut, set against the dramatic Antarctic landscape, is “refreshingly different, vivid and immediate. Midge Raymond has an extraordinary gift for description that puts the reader bang in the middle of its dangerous and endangered world” (M.L. Stedman, *New York Times* bestselling author of *The Light Between Oceans*). It is only among the glacial mountains, cleaving icebergs, and frigid waters of Antarctica that Deb Gardener and Keller Sullivan feel at home. For a few blissful weeks each year they study the habits of Emperor and Adelie penguins and find solace in their work and in one another. But Antarctica, like their fleeting romance, is a fragile place, imperiled by the world to the north. Each year, Deb and Keller play tour guide to the passengers on the small expedition ship that ferries them to their research station. But this year, when Keller fails to appear on board, Deb begins to reconsider their complicated past and the uncertainty of any future they might share.

Acces PDF Tales From The Half Continent Monster Blood Tattoo 3 5

Then, shortly into the journey, Deb's ship receives an emergency signal from The Australis, a cruise liner that has hit desperate trouble in the ice-choked waters of the Southern Ocean. Soon Deb's role will change from researcher to rescuer; among the crew of that sinking ship, Deb learns, is Keller. As Deb and Keller's troubled histories collide in this "original and entirely authentic love story" (Graeme Simsion, author of *The Rosie Project*), Midge Raymond takes us on an unforgettable voyage deep into the wonders of the Antarctic and the mysteries of the human heart. *My Last Continent* is "a sensitive exploration of how the smallest action can ripple through an ecosystem—seemingly impenetrable, but as fragile as the human heart" (*The Minneapolis Star-Tribune*). "Atmospheric and adventurous...The story and vivid writing will keep readers glued to the pages" (*Library Journal*).

Selected as one of NPR's Best Books of 2019 Selected by National Geographic as one of 12 "great books for travelers" 'The prose is colourful and vigorous ... Jubber's journeying has indeed been epic, in scale and in ambition. In this thoughtful travelogue he has woven together colourful ancient and modern threads into a European tapestry that combines the sombre and the sparkling' *Spectator* 'A genuine epic' *Wanderlust* Award-winning travel writer Nicholas Jubber

journeys across Europe exploring Europe's epic poems, from the Odyssey to Beowulf, the Song of Roland to the Nibelungenlied, and their impact on European identity in these turbulent times. These are the stories that made Europe. Journeying from Turkey to Iceland, award-winning travel writer Nicholas Jubber takes us on a fascinating adventure through our continent's most enduring epic poems to learn how they were shaped by their times, and how they have since shaped us. The great European epics were all inspired by moments of seismic change: The Odyssey tells of the aftermath of the Trojan War, the primal conflict from which much of European civilisation was spawned. The Song of the Nibelungen tracks the collapse of a Germanic kingdom on the edge of the Roman Empire. Both the French Song of Roland and the Serbian Kosovo Cycle emerged from devastating conflicts between Christian and Muslim powers. Beowulf, the only surviving Old English epic, and the great Icelandic Saga of Burnt Njal, respond to times of great religious struggle - the shift from paganism to Christianity. These stories have stirred passions ever since they were composed, motivating armies and revolutionaries, and they continue to do so today. Reaching back into the ancient and medieval eras in which these defining works were produced, and investigating their continuing influence today, Epic Continent explores how matters of honour, fundamentalism, fate, nationhood, sex, class and politics

Acces PDF Tales From The Half Continent Monster Blood Tattoo 3 5

have preoccupied the people of Europe across the millennia. In these tales soaked in blood and fire, Nicholas Jubber discovers how the world of gods and emperors, dragons and water-maidens, knights and princesses made our own: their deep impact on European identity, and their resonance in our turbulent times.

"I come from Des Moines. Somebody had to." And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of smiling village where the movies from his youth were set. Instead he drove through a series of horrific burgs, which he renamed Smellville, Fartville, Coleslaw, Coma, and Doldrum. At best his search led him to Anywhere, USA, a lookalike strip of gas stations, motels and hamburger outlets populated by obese and slow-witted hicks with a partiality for synthetic fibres. He discovered a continent that was doubly lost: lost to itself because he found it blighted by greed, pollution, mobile homes and television; lost to him because he had become a foreigner in his own country.
