Teaching Exceptional Children and Adolescents: A Canadian

Children and adolescents can be especially vulnerable because of their immaturity and dependence, but it is important also to recognise their potential and resilience. A child-centred situation analysis may be important in identifying and assessing the particular needs of children in particular situations.

Child And Adolescent Development Module - UNHCR

Knowing the meaning of academic vocabulary words helps adolescents understand content-area text and improves their academic achievement. To demonstrate deep understanding of words, students reading below grade level and students with learning disabilities must be explicitly taught word meanings, encounter target words in illustrative contexts, and interact with target words in speaking and writing.
