Teaching a foreign language requires educators to recognize the needs of their students. The requirements of adult learners differ greatly from those of young English language learners (YELLS). By identifying their needs, teachers can then adapt various factors in the classroom in order to have the greatest impact on YELL learning.

Teaching young students how to speak is the most important area of learning. The best practice embeds speaking and listening across all aspects and areas of their education. Students use speaking and listening to solve problems, speculate, share ideas, make decisions and reflect on what is important. Social relations in the classroom depend on talk, and students’ confidence and attitudes to learning are affected by friendships and positive interaction.

By Emily Kaplan. April 12, 2019. Over 10 percent of students in the United States—more than 4.8 million kids—are English language learners (ELLs), and the number is on the rise. Though these students do not learn differently than their native-English-speaking peers, they do have particular educational needs. To learn about these needs—and best practices for addressing them—I interviewed a range of educators and observers, including Larry Ferlazzo, an educator and author of The ESL ...

This comprehensive guide to research and debate centres around language learning in childhood, the age factor and the different contexts where language learning happens, including home and school contexts. The scope is wide, capturing examples of studies with different age groups, different methodological approaches and different languages.

Adopting a learner-centred approach that places an emphasis on hands-on child SL methodology, this book illustrates the practices used to teach young second language learners in different classroom contexts: (1) English-as-an-Additional-Language-or-Dialect (EAL/D) – both intensive EAL/D and EAL/D in the mainstream (2) Language-Other-Than-English (LOTE) (3) Content-and-Language-Integrated-Learning (CLIL), (4) Indigenous (5) Foreign-Language (FL). It will be particularly useful to undergraduate teachers to build upon the literacy unit they undertake in the first years of their course to explore factors that constitute an effective child SL classroom and, in practical terms, how to develop such a classroom. The pedagogical strategies for teaching young language learners in the six chapters are firmly guided by research-based findings, enabling not only pre-service teachers but also experienced teachers to make informed choices of how to effectively facilitate the development of the target language, empowering them to assume an active and effective role of classroom practitioners.

An overview of the issues surrounding the teaching of young learners combines up-to-date research with principles of classroom practice to discuss skills, vocabulary, grammar, adapting and designing materials, planning and assessment, and policy decisions.

This book will develop readers' understanding of children are being taught a foreign language.

This book focuses on teaching English as a foreign language to children aged 7-12.

Aimed at student teachers, educators and practitioners, Teaching English Language to Young Learners outlines and explains the crucial issues, themes and scenarios relating to this area of teaching. Each chapter by a leading international scholar offers a thorough introduction to a central theme of English as a foreign language (EFL) with preteens, with clear presentation of the theoretical background and detailed references for further reading, providing access to the most recent scholarship. Exploring the essential issues critically and in-depth, including the disadvantages as well as advantages of Teaching English as a Foreign Language (TEFL) with young learners, topics include: - task-based learning in the primary school; - storytelling; - drama; - technology; - vocabulary development; - intercultural understanding; - Content and Language Integrated Learning (CLIL) scenarios; - assessment. Innovative and rapidly emerging topics are covered, such as immersion teaching, picturebooks in the EFL classroom and English with pre-primary children.

The Routledge Handbook of Teaching English to Young Learners celebrates the ‘coming of age’ for the field of research in primary-level English Language Teaching. With 32 chapters written by international scholars from a wide geographical area including East Africa, Mexico, the South Pacific, Japan, France, the USA and the UK, this volume draws on areas such as second language acquisition, discourse analysis, pedagogy and technology to provide: An overview of the current state of the field, identifying key areas of TEYL. Chapters on a broad range of subjects from methodology to teaching in difficult circumstances and from Content and Language Integrated Learning (CLIL) to gaming. Suggestions of ways forward, with the aim of shaping the future research agenda of TEYL in multiple international contexts. Background research and practical advice for students, teachers and researchers. With extensive guidance on further reading throughout, The Routledge Handbook of Teaching English to Young Learners is essential reading for those studying and researching in this area.

TESOL International Association has defined a core set of principles for the exemplary teaching and learning of English as a new language. This book shows educators how to apply these principles to teaching young English learners (2- to 12-year-olds) in a foreign language (EFL) setting. The 6 Principles(R) and their recommended practices are targets of teaching excellence that provide teachers with the knowledge to improve instruction and assessment. Instructional techniques are illustrated with a multitude of classroom examples, case studies, checklists, and vignettes.

Teaching Young Learners to Think offers 80 activities with photocopiable worksheets and easy-to-follow teacher's notes. Herbert Puchta, author of a wide range of innovative teaching materials, and Marion Williams, well-known for her book Psychology for Language Teachers, have developed specifically designed tasks that develop children's foreign language competence while promoting the basic thinking skills they will need as they grow older. Teachers will enjoy using the motivating tasks that have been carefully devised to match the language level of EFL learners. Students will enjoy the fun of the thinking challenges these activities offer.
