Becoming a Chartered Engineer (CEng)

Technical Report route- This involves the completion of a technical report accompanied by a technical interview, followed by a Professional Review Interview. The technical interview will assess your technical equivalence and the Professional Review Interview will assess your experience against the competences 2.

CEng Application Guideline Summary

A Technical Report. Further learning is essentially

Guidance all levels, in both traditional and distance learning settings. Additionally, it discusses professional societies for designers and design educators, as well as the current standards for professional registration, and program accreditation. Reflecting recent advances and emerging trends, it offers a valuable handbook for design practitioners and managers, curriculum designers and program leaders alike. It will also be of interest to students and academics looking to develop a career related to the more technical aspects of design.
