There are many myths about Margaret Thatcher's extraordinary personality and political career. But what was it really like to work with her? In The Real Iron Lady: Working with Margaret Thatcher, Gillian Shephard speaks to an eclectic and distinguished range of Mrs T.'s former colleagues; all offer a unique insight into what the Iron Lady was really like at close quarters. Among them are John Major, Geoffrey Howe, Douglas Hurd and other Cabinet colleagues, alongside an ambassador and senior civil servants. In addition, prominent Conservative Party members, distinguished journalists and a leading trade unionist add their views, as well as MPs, political advisers and Downing Street staff. A French perspective is even provided by Hubert Védrine, foreign minister to erstwhile President François Mitterrand. Gillian Shephard has faced this miscellany of recollections of the Iron Lady with her own sparkling wit and acerbic comments - resulting in a fascinating close-up portrait of Britain's first woman Prime Minister. Most importantly, it is a portrait painted by the people who were with her throughout the dramas of her political career: the Falklands conflict, the miners' strike, the Brighton Bomb outrage and, eventually, her downfall. The book, with its wealth of previously unpublished material, portrays Margaret Thatcher as a woman of contrasts: courageous, kind, ferocious, feminine - and so far, unsurpassed.

The Iron Lady, the definitive Margaret Thatcher biography, is available just in time for the movie starring Meryl Streep as one of the most infamous figures in postwar politics. Whether you love her or hate her, Margaret Thatcher's impact on twentieth-century history is undeniable. From her humble, small-town upbringing to her rise to power as the United Kingdom's first female prime minister, to her dramatic fall from grace after more than three decades of service, celebrated biographer John Campbell delves into the story of this fascinating woman's life as no one has before. The result of more than nine years of meticulous research, The Iron Lady is the only balanced, unvarnished portrait of Margaret Thatcher, one of the most vital and controversial political figures of our time.

This first volume of Margaret Thatcher's memoirs encompasses the whole of her time as Prime Minister - the formation of her goals in the early 1980s, the Falklands, the General Election victories of 1983 and 1987 and, eventually, the circumstances of her fall from political power. She also gives frank accounts of her dealings with foreign statesmen and her own ministers.

In a remarkably candid new book, former high-ranking diplomat Robin Renwick provides a fascinating insight into Margaret Thatcher's performances on the world stage. He examines her successes, including the defeat of aggression in the Falklands, her contribution to the ending of the Cold War and her role in the Anglo-Irish agreement; her special relationship with Mikhail Gorbachev and what the Americans felt to be the excessive influence she exerted over Ronald Reagan, and attitudes towards F. W. de Klerk and Nelson Mandela; and what she herself acknowledged as her spectacular failure in resisting German reunification. He describes at first hand her often turbulent relationships with other European leaders and her arguments with Cabinet colleagues about European monetary union (in which regard, he contends, her arguments have stood the test of time and are highly relevant to the crisis in the eurozone today). Finally, he tells of her bravura performance in the run-up to the Gulf War, her calls for intervention in Bosnia and the difficulties she created for her successor. While her faults were on the same scale as her virtues, Margaret Thatcher succeeded in her mission to restore Britain's standing and influence, in the process becoming a cult figure in many other parts of the world. Including material from the recently released War Cabinet files on the Falklands conflict, this book is an important exploration of an outstanding world leader.

BANG! BANG! BANG! went the guns of the Tin-Pot Foreign General BANG! BANG! BANG! went the guns of the Old Iron Woman Raymond Briggs's visceral take on the Falklands War is uncompromising in its dark and moving satire of the build-up and aftermath of the conflict. This controversial book's infamous stars - General Leopoldo Galtieri and Margaret Thatcher - are depicted as robotic caricatures with a pointless blood lust. Now available as an eBook for the first time.
