Maria Montessori identified unique stages in the child's life. She observed and subsequently outlined the specific ways a child between birth and six years absorbs information. Montessori called this the absorbent mind. By understanding the absorbent mind of the child, we can understand the child's behavior. We can prepare experiences and environments that support the child's optimal use of his/her facility to absorb experiences and situations in life.

The wonderful step taken by the baby is to pass from nothing to something. □ Maria Montessori, *The Absorbent Mind* (23). *The Absorbent Mind*. This is why Montessori believed the period from birth to 6 was the most important time of life. The child grows from an unconscious to conscious learner. The child learns more in this period of life than any other.

What is the Absorbent Mind & Sensitive Periods?

Maria Montessori, in her book *The Absorbent Mind*, says that □ the period that extends from 0-6 years, because it is during this first period of intelligence, the great instrument of man is formed, and not only intelligence, but the whole psychic faculties are constructed during this period. □ (pg. 31) It is widely understood by both Montessori educators and psychiatrists, that a child's basic personality is formed by the age of six and that supports the developmental philosophy ...

The Ten Secrets of Montessori-#3 The Absorbent Mind ...

The Absorbent Mind As Dr. Maria Montessori observed elementary-age children in India during the years of 1939-1945, she recognized the unique qualities of the mind of the child zero to six years old. She saw in these young children the ability to absorb information from their environment.

The Absorbent Mind □ Magnolia Montessori Academy

Maria Montessori *The Absorbent Mind* is an analysis of the physical and psychological aspects of a child's growth during the most significant period of life. During this period the child learns motor co-ordination, language, the making of social adjustments, the setting of work habits, and the beginning of routines that set patterns for life.
