## Practice Planner

This Appendix covers two kinds of notes written about psychotherapy—progress notes and psychotherapy notes—and highlights the practical value of this important distinction. Progress notes are part of the client record or file, as noted below. Psychotherapy notes are not part of the file. After an overview of the client file or record, the difference between these two kinds of notes is discussed along with guides for writing progress notes.

Unlike psychotherapy notes, progress notes are meant to be shared with other healthcare workers who assist with a patient's treatment plan.

Progress notes inform staff about patient care and communicate treatment plans, medical history and other vital information.
