makes this new edition an ideal stand-alone text for health economics and health policy courses.

9781567933284: The Economics of Health Reconsidered, Third ...

Now in its fourth edition, *The Economics of Health Reconsidered* presents an argument that still holds true: despite assertions to the contrary, neither economic theory nor evidence shows that reliance on market forces leads to superior outcomes in healthcare systems. Government plays a crucial role in making the healthcare sector not only more equitable but also more efficient.
