The Eczema Detox: The low-chemical diet for eliminating ...  
What are the top foods to relieve and remove eczema? Drink vegetable juices that are gentle on the liver (i.e. low to moderate in salicylates and low in amines), with ingredients such as celery, pear, carrot and beetroot (avoid kale, spinach and citrus!). It's often what you avoid, rather than what you eat, that helps to prevent eczema so working out your triggers can be the most important step. Allergy tests are often inaccurate and they cannot diagnose chemical sensitivity or food ...
