Arguing that the curriculum is always both forward- and rearward-looking, Williamson considers how each of these innovations represents a certain way of understanding the past while also promoting a particular vision of the future.The curriculum initiatives are all examples of what Williamson calls " centrifugal schooling, " expressing a vision of education and learning that is decentered, distributed, and dispersed, emphasizing networks and connections.

The Future of the Curriculum | The MIT Press

Arguing that the curriculum is always both forward- and rearward-looking, Williamson considers how each of these innovations represents a certain way of understanding the past while also promoting a particular vision of the future. The curriculum initiatives are all examples of what Williamson calls " centrifugal schooling, " expressing a vision of education and learning that is decentered, distributed, and dispersed, emphasizing networks and connections.

The Future of the Curriculum: School Knowledge in the ...

Curriculum change, therefore, is a political act, motivated by particular inter- pretations of educational purpose, aspirations for the future, and ideas about the kinds of people that a society expects to emerge from school. Often curriculum reform depends on the manu- facturing of educational crises, disinformation, myths, and half- truths.
