of the effectiveness

# Acces PDF The Journal Of

of systems or  
products. One way  
to define the  
difference between  
reliability and  
maintainability is  
that while reliability  
is the probability  
that a failure will  
not occur in a  
particular time,  
maintainability is  
the probability that  
required

# Acces PDF The Journal Of

maintenace will be  
successfully  
completed in a

Maintainability - an  
overview |

ScienceDirect

Topics

Reliability and  
maintainability  
management is the  
management of  
failure. By using

# Acces PDF The Journal Of

specific approaches  
and tools, one can  
obtain optimized,  
cost-effective  
solutions to the  
design, assembly  
and use of a  
product. R eliability  
is the probability of  
a product  
successfully  
functioning as  
expected for a  
specific duration

# Acces PDF The Journal Of

within a specified environment. Figure 1 shows the four key elements to reliability: function, probability of success, duration and environment.
