the scenes. The material reveals how the most important decisions were made; and how the turmoil split the ruling elite into radically opposed factions. The book includes the minutes of the crucial meetings at which the Elders decided to cashier the pro-reform Party secretary Zhao Ziyang and to replace him with Jiang Zemin, to declare martial law, and finally to send the troops to drive the students from the Square. Just as the Pentagon Papers laid bare the secret American decision making behind the Vietnam War and changed forever our view of the nation's political leaders, so too has The Tiananmen Papers altered our perception of how and why the events of June 4 took the shape they did. Beyond its borders, Beijing has recast itself as a great power, seeking to reclaim its past glory and to create a system of international norms that better serves its more ambitious geostrategic objectives. In so doing, the Chinese leadership is reversing the trends toward greater political and economic opening, as well as the low-profile foreign policy, that had been put in motion by Deng Xiaoping's "Second Revolution" thirty years earlier.
