respond to emotional suffering with self-criticism, shame, or defensiveness - tough-to-break habits that only make suffering worse. This wise, eloquent, and practical book illuminates the nature of self-compassion and offers easy-to-follow, scientifically grounded steps for incorporating it into daily life.

"Buck up." "Stop feeling sorry for yourself." "Don't ruin everything." When you are anxious, sad, angry, or lonely, do you hear this self-critical voice? What would happen if, instead of fighting difficult emotions, we accepted them? Over his decades of experience as a therapist and mindfulness meditation practitioner, Dr. Christopher Germer has learned a paradoxical lesson: We all want to avoid pain, but letting it in--and responding compassionately to our own imperfections, without judgment or self-blame--are essential steps on the path to healing. This wise and eloquent book illuminates the power of self-compassion and offers creative, scientifically grounded strategies for putting it into action. Free audio downloads of the meditation exercises are available at the author's website: [www.chrisgermer.com](http://www.chrisgermer.com). Mindful Self-Compassion Program, by  
Christopher Germer and Kristin Neff (for  
professionals). Association for Behavioral  
and Cognitive Therapies (ABCT) Self-Help Book  
of Merit

Self-compassion is a powerful inner resource. More than a thousand research studies show the benefits of being a supportive friend to yourself, especially in times of need. This science-based workbook offers a step-by-step approach to breaking free of harsh self-judgments and impossible standards in order to cultivate emotional well-being. In a convenient large-size format, this is the first self-help resource based on the authors' groundbreaking 8-week Mindful Self-Compassion program, which has helped tens of thousands of people around the globe. Every chapter includes guided meditations (with audio downloads); informal practices to do anytime, anywhere; exercises; vivid examples of people using the techniques to address different types of challenges (relationship stress, weight and body image issues, health concerns, anxiety, and more); and empathic reflection questions. Working through the book, readers build essential skills for personal growth based on self-care--not self-criticism. See also *The Mindful Path to Self-Compassion*, by Christopher Germer, which delves into mindful self-compassion and shares moving stories of how it can change lives.

This is the authoritative guide to conducting the Mindful Self-Compassion (MSC) program, which provides powerful tools for coping with life challenges and enhancing emotional well-being. MSC codevelopers Christopher Germer and Kristin Neff review relevant theory and research and describe the program's unique pedagogy. Readers are taken step by step through facilitating each of the eight sessions and the accompanying full-day retreat. Detailed vignettes illustrate not only how to teach the course's didactic and experiential content, but also how to engage with participants, manage group processes, and overcome common obstacles. The final section of the book describes how to integrate self-compassion into psychotherapy. Purchasers get access to a companion website with downloadable audio recordings of the guided meditations. Note: This book is not intended to replace formal training for teaching the MSC program. See also two related resources for MSC participants and general readers, *The Mindful Self-Compassion Workbook*, by Kristin Neff and Christopher Germer, and *The Mindful Path to Self-Compassion*, by Christopher Germer.

find it difficult to stop anxiously anticipating future events and regretting or rethinking past actions. Left unchecked, this tendency can lead to mental health problems such as depression and generalized anxiety disorder. The Mindful Path Through Worry and Rumination offers powerful mindfulness strategies derived from Buddhist spiritual practices and proven psychological techniques to help you stop overthinking what you can't control—the future and the past—and learn how to find contentment in the present moment.

Sometimes we all need a little lift—something to put the bounce back in our step. If you are like many, you may struggle with self-confidence. You may also compare your successes and failures with those of others. If everything is going well in your life, this tactic may temporarily bolster your

sense of self-worth. But what happens when things aren't going so well? Based on the idea that true self-esteem is grounded in internal, rather than external factors, this book offers 50 easy-to-use mindfulness practices that will help you improve inner awareness and live a more fulfilled life without harsh self-judgment. Mindfulness can help you battle feelings of low self-worth by encouraging you to pay attention to your negative thoughts as they occur, accept them, and ultimately control of how you react to them. The exercises in this pocket-sized book are intended to be simple, brief, and powerful. These are practices to settle into each morning, perhaps before your cup of tea or coffee, and which can be sprinkled throughout the day when you are at work, play, or home. To help you keep track of your thoughts, the book also includes journaling exercises that will help you discover what actions may have led to feelings of positivity or negativity. By focusing on your own awareness and thought processes, you will begin to understand what factors cause you to feel bad about yourself, and honestly assess those factors without giving in to feelings of hopelessness. You will discover that true self-esteem has less to do with what the world is telling you, and has everything to do with what you tell yourself.

itself, and everything that unfolds within it, the "full catastrophe" of the human condition in the words of Zorba the Greek, shape your ongoing development and maturation. Millions have followed this path to greater sanity, balance, and well-being, often in the face of huge stress, pain, uncertainty, sorrow, and illness. In his landmark book, Full Catastrophe Living, Jon Kabat-Zinn shared this innovative approach, known as mindfulness-based stress reduction (MBSR), with the world. Now, in this companion volume, 100 pointers from that groundbreaking work have been carefully selected to inspire you to embrace what is deepest and best and most beautiful in yourself. Whether you are trying to learn patience, cope with pain, deal with the enormous stress and challenges of the age we live in, improve your relationships, or free yourself from destructive emotions, thoughts, and behaviors, these deceptively simple meditations will remind you that you have deep inner resources to draw upon, the most important of which is the present moment itself. Regardless of your age or whether you are familiar with the healing power of mindfulness, this insightful, inspirational guide will help you to honor, embrace, learn from, and grow into each moment of your life.
