It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is . . . . A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking . . . . Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers . . . . Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

Luxurious, soothing, moisturizing olive oil-based soaps made at home easily and economically. There are only three essential ingredients required to create these soaps: water, olive oil, and caustic soda. Olive oil is the primary ingredient enjoying the highest rating as its properties are well known throughout the world. Olive oil is the most beneficial oil to your health, and in cosmetics it has been used since ancient times for its virtues for glowing hair and skin. Rich in vitamins, minerals and proteins it has the added benefit of being available virtually everywhere. Once these three key ingredients are in place, there are a number of wonderful extra ingredients that will customize and create a personal soap. These ingredients include beeswax, cocoa butter, clay, kaolin, seaweed, goats milk and egg yolks, and others. Some ingredients will give the soap hardness (beeswax) or softness (honey) or more foam (cocoa butter) for greater cleansing ability. Since using soap is such a sensory experience, there is a comprehensive section on essential oils which create that air of perpetual breeze of a good soap. A comprehensive section on these essential oils, their history and therapeutic uses provide all the information needed to create the perfect scent.
