The basic premise of the Newlywed Game is for husbands and wives to try to match each other's answers to a variety of silly questions. I always enjoyed it because the couples seemed like real people and the answers didn't feel coached or rehearsed.

In 1978, Rodney Alcala was a contestant on the "The Dating Game," one of America's most popular television shows at the time. Handsome, successful, and romantic, he was embraced by the audience—and chosen as the winner by the beautiful bachelorette. To viewers across the country, Rodney seemed like the answer to every woman's dreams. Until they learned the truth about his once and future crimes... Ten years before his TV appearance, Rodney was charged with the sexual assault and attempted murder of an eight-year-old girl. In the decades that followed, he would be accused of seven murders—and, as new DNA evidence continues to be uncovered, the list may grow. The case is so disturbing that it's been documented in several news outlets, from People magazine and USA Today to 48 Hours Mystery and Dr. Phil. The Dating Game Killer is the shocking true story about the dark and twisted man.

Aliens. Ley lines. Water dowsing. Conspiracies and myths captivate imaginations and promise mystery and magic. Whether it's arguing about the moon landing hoax or a Frisbee-like Earth drifting through space, when held up to science and critical thinking, these ideas fall flat. In *Weird Earth: Debunking Strange Ideas About Our Planet*, Donald R. Prothero demystifies these conspiracies and offers answers to some of humanity's most outlandish questions. Applying his extensive scientific knowledge, Prothero corrects misinformation that con artists and quacks use to hoodwink others about geology--hollow earth, expanding earth, and bizarre earthquakes--and mystical and paranormal happenings--healing crystals, alien landings, and the gates of hell. By deconstructing wild claims such as prophecies of imminent natural disasters, Prothero provides a way for everyone to recognize dubious assertions. Prothero answers these claims with facts, offering historical and scientific context in a light-hearted manner that is accessible to everyone, no matter their background. With a careful layering of evidence in geology, archaeology, and biblical and historical records, Prothero's *Weird Earth* examines each conspiracy and myth and leaves no question unanswered.

Ted Bundy, BTK, Lonnie Franklin Jr. ("the Grim Sleeper"), and Anthony Sowell ("the Cleveland Strangler")—what made these men into serial killers? Examination by authorities and professionals has given some insight into the minds of these serial killers and others, and psychology students will learn about the most current psychoanalysis of these modern-day murderers. The text also includes a personality disorder self-assessment quiz readers can take to learn more about psychopathy—the most common psychological condition for serial killers.

From Saturday Night Fever to Jersey Shore, Italian American youth in New York City have appropriated—and been appropriated by—popular American culture. Here, Donald Tricarico investigates how Italian ethnicity has been used to fashion Guido as a distinct youth style that signals inclusion in popular American culture and, simultaneously, the making of a new ethnic subject. Emerging from a wave of Italian immigration after World War II in outer borough neighborhoods such as Bensonhurst, the story of the Guido is an Italian American story, symbolizing the negotiation of a negatively privileged ethnicity within American society. Tricarico takes up questions about the definition of Guido, the role of disco, and the identity politics of Jersey Shore in order to reconsider the significance of Guido for the study of Italian American ethnicity.

Adultery scandals involving politicians. Dating websites for married women and men. News reports on raids of polygamous communities. It seems that non-monogamy is everywhere: in popular culture, in the news, and before the courts. In *Fraught Intimacies*, Nathan Rambukkana delves into how polygamy, adultery, and polyamory are represented in the public sphere. His intricate analysis reveals how some forms of non-monogamy are tacitly accepted, even glamorized, while others are vilified and reviled. By questioning what this says about intimacy, power, and privilege, this book offers an innovative framework for understanding the status of non-monogamy in Western society.

The conclusion to Violet and Viggo's journey and to the Gender game series.

Shakespeare / Text sets new agendas for the study and use of the Shakespearean text. Written by 20 leading experts on textual matters, each chapter challenges a single entrenched binary - such as book/theatre, source/adaptation, text/paratext, canon/apocrypha, sense/nonsense, extant/ephemeral, material/digital and original/copy - that has come to both define and limit the way we read, analyze, teach, perform and edit Shakespeare today. Drawing on methods from book history, bibliography, editorial theory, library science, the digital humanities, theatre studies and literary criticism, the collection as a whole proposes that our understanding of Shakespeare - and early modern drama more broadly - changes radically when 'either/or' approaches to the Shakespearean text are reconfigured. The chapters in Shakespeare / Text make strong cases for challenging received wisdom and offer new, portable methods of treating 'the text', in its myriad instantiations, that will be useful to scholars, editors, theatre practitioners, teachers and librarians.

In the struggle to deal with large-scale disinvestment, rampant gentrification, and the unjust narrative of race and real estate, Vanica shares the power and possibility of achieving a shift in the fundamental long-term community control over decisions and assets through the resident ownership of neighborhood change. Courageous Philanthropy takes the reader on an inspiring two-decade-long journey to address the power dynamics between foundations and communities by each owning their own change and shows how working across differences and deliberating across cultures, faiths, ages, genders, and education levels to achieve change can be our now and not just our hopeful picture of the future. It is time, Vanica contends, to forge a new, more courageous relationship between foundations and the communities they seek to serve.
