The Reed Organ Man was recently featured in an article in the San Francisco Chronicle. He is a past President of the Reed Organ Society and is currently editor of the Reed Organ Society Quarterly .

The Reed Organ Man

The organ was built by the Mason & Risch Company in 1891, in Worcester, Massachusetts. As far as can be learned, the organ was last used in the Tumalo (Oregon) Community Church sometime in 1981; it has been in storage ever since. Mechanical work on the organ is essentially complete, and tuning is under way.

Those who shell out for the work of The Reed . Organ Man are not disappointed. He's currently working on an 1887 Estey, whose owner hasn't heard it working in 50 years.

The Organ Minder / James Tyler, The Reed Organ Man, turns ...

Although badged for Waters (New York) this organ was clearly built by Shoninger. It is his Centennial model, built in 1886. It has all the bells, but no whistles! The massive case is unusual (to say the least). The action has an extra half-set of reeds, and Bernard's unusual sub-coupler assembly. \$3500.00 FOB San Francisco.

The Reed Organ Man

Large Clough & Warren reed organ with Scribner resonator tubes giving it an unusually smooth and rounded tone, as patented by George Scribner in 1870 (US104653). In good playing order and with minor modifications to iron out some idiosyncrasies in its original design, all of which could easily be reversed.

Main Page

The pump organ is a type of free-reed organ that generates sound as air flows past a vibrating piece of thin metal in a frame. The piece of metal is called a reed. Specific types of pump organ include the reed organ, harmonium, and melodeon. More portable than pipe organs, free-reed organs were widely used in smaller churches and in private homes in the 19th century, but their volume and tonal range were limited. They generally had one or sometimes two manuals, with pedal-boards being rare. The

Pump organ - Wikipedia

No electricity required for this piece, this is a 100% foot powered mechanical instrument, using air, wooden chambers and brass reeds to produce the sound. W...

To encourage public performances of extant and new reed organ music; and to advise on performance techniques. To foster research of a scholarly nature in the reed organ field, and to encourage publication of these findings in both the ROS Quarterly and other related journals. To survey and document as many extant reed organs as is possible.

The Reed Organ Society :: Home

The Apollo Reed Organ Works, which was an offshoot of the pipe organ business, was established at 13 Islington, Liverpool in 1913. It seems that the English manufacturers liked an imaginative name to distinguish their products. The 2MP reed organs were designed as practice instruments.

The Apollo Organ - Rushworth and Dreaper (1910-39)

In reed organ work, the flat blade screw-driver working in a transverse slot in the head is universally encountered: other kinds of screws were used only rarely, and those very late in the reed organ manufacturing era. For this work, a driver with the correct shape of tip, carefully dressed, should be used. As screws come in a variety of sizes ...

The Reed Organ Society :: Reed Organ Repair

All the brass medal reeds were removed and cleaned with reed organ solutions and the reed cells were all cleaned and checked as well. Nothing was omitted in repair by the master craftsman and since the man is retired. No more organs will ever be repaired. Antique reed organ restorers are a dying breed and there are so few people to take up the ...

Organs - Reed Pump Organ

Reed or pump organ from the 1870's era made of black walnut probably from lumber cut in the area. The organ has been in seller's possession since 1969 when bought in Peoria, Illinois and is one of the first organ obtained what turned out to be a long organ collecting and repairing odyssey.
