Script analysis is the method of uncovering the "early decisions, made unconsciously, as to how life shall be lived". It is one of the five clusters in transactional analysis, involving "a progression from structural analysis, through transactional and game analysis, to script analysis". Eric Berne, the father of transactional analysis, focused on individual and group psychotherapy but today, transactional analysis and script analysis is considered in organisational settings, educational ...

## The Book of Life Movie Script

Script is a life plan Alternative to the idea of having a general view of the world, life plans are regarded as specific stories with beginnings, middles and ends, laid down by a child. The life plan definition suggests the plan is formulated by experiences in the world and with others, which steer the direction of adult life patterns.
