No one can plausibly deny that the religious development of the peoples of Canaan (and indeed of all the ancient world around the eastern Mediterranean to the Indus river) were affected by the cultural and religious developments in Mesopotamia, the centre of the region, and a fertile region second to none known in the world, on a par with the Nile, around which another major civilization arose. This is a text of history of Mesopotamia in its own right. By the time history gets back this far, the lines become very blurred, rather like parallel lines intersecting on the horizon. Literature, religion, archaeology, sociology, psychology -- all of these disciplines become intertwined in Jacobsen's text as he looks at Sumerian society.
