It is categorized as the stream of economics that provides empirical content to economic relations. While reviewing the first edition of this book, Theory of Econometrics, the Journal of Economic Literature classified the book as one that focuses greatly on the exposition and simplification of mathematical representation of subjects. This book only requires the readers to have a college-level understanding of algebraic concepts, as greater emphasis is laid on the economic facets of econometrics.

'A textbook which emphasises clarity of exposition and simplification of the mathematical presentation of topics. Assumes only college algebra and introductory statistics, since the

greatest attention is given to the economic aspects of econometrics'. Journal of Economic Literature

This Third Edition updates the "Solutions Manual for Econometrics" to match the Fifth Edition of the Econometrics textbook. It adds problems and solutions using latest software versions of Stata and EViews. Special features include empirical examples using EViews and Stata. The book offers rigorous proofs and treatment of difficult econometrics concepts in a simple and clear way, and it provides the reader with both applied and theoretical econometrics problems along with their solutions.

Communicative English for Engineers and Professionals covers the syllabi of B. Tech, BE, B.Com, M.Com, BBA, MBA, hospitality, B. Pharma, nursing, physiotherapy, and other courses. It integrates learning modules for spoken and written skills in English to give the readers an edge in their careers. Focusing on the requirements of professionals and students, this book equips them to effectively communicate and present themselves at their workplace and other interactive spheres.

This advanced economics text bridges the gap between familiarity with microeconomic theory and a solid grasp of the principles and methods of modern neoclassical microeconomic theory.
