Things from the Flood is an Earth setting (ish) with mixed technology, and I think this mix of everything changing and the old world, the old wonders, falling apart is a dominant aspect of the game. The Loop is a massive particle accelerator in Sweden (the default setting) or in America (the alternative setting).

Dangerous Things: A review of Things from the Flood RPG

Things from the Flood stands somewhere between being a direct sequel and a particularly hefty expansion to the wildly successful Tales from the Loop. In many ways it feels like the original game reflected in a funhouse mirror, staying essentially the same but becoming a little taller, a bit broader and much, much more sinister.

The Flood was responsible for consuming most of the sentient life in the galaxy, notably the Forerunners, during the 300-year-long Forerunner-Flood war. The Flood presents the most variable faction in the trilogy, as it can infect and mutate Humans and Covenant species, such as Sangheili and Jiralhanae, into Combat Forms.
