An eleven-year-old shoots a stray cat with his new air rifle, subsequently suffers from guilt, and eventually assumes responsibility for it.

Getting Ready for the 4th Grade Assessment Test: Help Improve Your Child's Math and English Skills – Many parents are expressing a demand for books that will help their children succeed and excel on the fourth grade assessment tests in math and English –especially in areas where children have limited access to computers. This book will help students practice basic math concepts, i.e., number sense and applications as well as more difficult math, such as patterns, functions, and algebra. English skills will include practice in reading comprehension, writing, and vocabulary. Rubrics are included for self-evaluation.

Ultima, a curandera, one who cures with herbs and magic, comes to Antonio Marez's New Mexico family when he is six years old, and she helps him discover himself in the magical secrets of the pagan past.

A one-of-a-kind resource for evaluators using the Woodcock-Johnson® III The Woodcock-Johnson® III is one of the most widely used instruments for assessing both cognitive abilities and achievement in children and adolescents. Woodcock-Johnson® III: Reports, Recommendations, and Strategies is the only reference to provide valuable guidelines for preparing useful recommendations and writing effective, descriptive psychological and educational reports based on the WJ III® scores, tasks analysis, and error patterns. Featuring the most up-to-date information available on the WJ III®, this essential resource offers an overview of the WJ III® scores and interpretive information, along with a review of the clusters, and tests. Numerous examples of diagnostic reports that depict a variety of common student learning problems are included, illustrating applications of the WJ III® in both educational and clinical settings. Drs. Nancy Mather and Lynne Jaffe also provide a wide variety of educational recommendations, along with summaries of proven methods and techniques for implementing successful examiner recommendations, which can easily be attached to a report. WJ III® examiners will find this volume invaluable in preparing psychoeducational reports about children's abilities, and teachers and educational therapists will find it helpful in converting recommendations into measurable goals and objectives for monitoring students' progress.

Argues that reading aloud to children is a vital part of their educational development, exploring how and where to read to achieve the best effects.

Geoffrey Chaucer. Includes two complete versions of the story--the original language on the left and a line-by-line translation on the right. 90 pages. Tale Blazers.

Socio-scientific issues (SSI) are open-ended, multifaceted social issues with conceptual links to science. They are challenging to negotiate and resolve, and they create ideal contexts for bridging school science and the lived experience of students. This book presents the latest findings from the innovative practice and systematic investigation of science education in the context of socio-scientific issues. Socio-scientific Issues in the Classroom: Teaching, Learning and Research focuses on how SSI can be productively incorporated into science classrooms and what SSI-based education can accomplish regarding student learning, practices and interest. It covers numerous topics that address key themes for contemporary science education including scientific literacy, goals for science teaching and learning, situated learning as a theoretical perspective for science education, and science for citizenship. It presents a wide range of classroom-based research projects that offer new insights for SSI-based education. Authored by leading researchers from eight countries across four continents, this book is an important compendium of syntheses and insights for veteran researchers, teachers and curriculum designers eager to advance the SSI agenda.

This study of successful people who have overcome the disadvantages that life can bring is a formula for turning bad into good that can be put into action immediately. Readers will see how happy and successful people turn heartbreak into their next break.

"In Curriculum-based Assessment for Instructional Design, Burns and Parker described a number of "authentic" (research-based) strategies and tools for assessing the student's prior knowledge, existing skill-level, and preferred mode of learning in order to maximize the instructional process. Indeed, in this book, Burns and Parker have developed a natural and practical extension of a conceptual format that was originally called, simply, curriculum-based assessment. The book provides much-needed clarification of the several terms that have been used over the past three decades, and it provides hands-on application of the instructional principles involved"--

Test with success using Florida Test Prep! This book features essential test practice in reading, math, and language for students in grade 3 and provides the most comprehensive strategies for effective FCAT test preparation. Today, more than ever, students need to be equipped with the skills required for school achievement and success on proficiency tests. The book includes suggestions for parents and teachers, answer keys, progress charts, self-assessment exercises, and scoring rubrics. This 160-page book aligns with state and national standards, is perfect for use at home or in school, and is favored by parents, homeschoolers, and teachers.
