This edition takes into account the research from Australia available through bodies such as ANZMAC and Australasian Marketing Journal. It provides an explanation of what consumer behaviour variables are and the types and importance of each.

Charlie is just an ordinary girl, or is she? She resides in the city with her best friends, where mysterious murders keep occurring, and folks keep vanishing without a trace. Planes fall from the sky and trains are derailling. The people are oblivious to what is actually happening, even the police are left feeling stunned. The city believes it's a serial killer, but others think it's radicalism. No one truly knows just how widespread it is, though it's everyone's worst nightmare. How would you feel if life as you knew it faded away or turned out it was merely a lie? The world has its eyes open, yet no one sees the truth. Not Charlie, her eyes are wide open, and she sees it all!

This manual provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

Hybrid Hong Kong attempts to attract and excite the intellectual, cultural, economic and political elites as well as the intelligent laymen of Hong Kong - hopefully enough for them to take a closer look at their society - while engendering a public discourse on the city's identity, its past, present and future. Hong Kong is at its crossroads. With a colonial past and having been handed over, and back, to China in 1997, the city has since been going through a process of re-sinicification and re-integration (not entirely wanted) into the Pearl River Delta region of mainland China, all of which have far-reaching consequences for identity politics, culture, loyalty and attachment, and everyday livelihood. The hybridity concept offers an in-between space, and time, to narrate, describe and make sense of the many layers of entanglement of cultural, anthropological, economic and political forces that impinge, impact, sometimes confuse, even disturb, the everyday lives of the Hongkongers who have decided to call the city home. The book probes a range of sites and locales of a Hongkonger's natural habitat, including film and television, ethnicity, popular music videos, gay identities, fashion, art, theatre, Cantopp electronic dance music, museum, visual arts, the Muslim youth, food and cuisine, and Chinese and western medicines. Based on ethnography, fieldwork and participant observation, Hybrid Hong Kong intends to display and explain hybridity as it is performed in the public as well as private spheres of city life. This book was originally published as a special issue of Visual Anthropology.
