SACRAMENTO - Today, the California Air Resources Board adopted a first-in-the-world rule requiring truck manufacturers to transition from diesel trucks and vans to electric zero-emission trucks beginning in 2024. By 2045, every new truck sold in California will be zero-emission. This bold and timely move sets a clean-truck standard for the nation and the world, and marks the Newsom administration's most important air pollution regulation to date.
