Treatment Plans and Interventions for Depression and ...
The treatment plan details the therapeutic interventions, what is going to be done, when it is going to be done, and by whom. It must consider each of the patient's needs and come up with clear ways of dealing with each prob-lem. The treatment plan flows into discharge planning, which begins from the initial assessment. The Diagnostic Summary

The Treatment Plan
INTERVENTIONS: attending to the tasks that are important for clients, understanding clients perception of the problem, therapist responding and being accessible to clients, creating a safe environment for clients to explore their distress, working through paperwork and explaining EFT, by identifying and articulating the problematic cognitive-affective processes underlying and generating symptomatic experience, open discussion of history seeking treatment, attend and actively participate in ...
