In *The Implosion of Capitalism* world-renowned political economist Samir Amin connects the key events of our times - financial crisis, Eurozone implosion, the emerging BRIC nations and the rise of political Islam - identifying them as symptoms of a profound systemic crisis. In light of these major crises and tensions, Amin updates and modifies the classical definitions of social classes, political parties, social movements and ideology. In doing so he exposes the reality of monopoly capitalism in its contemporary global form. In a bravura conclusion, Amin argues that the current capitalist system is not viable and that implosion is unavoidable. *The Implosion of Capitalism* makes clear the stark choices facing humanity - and the urgent need for a more humane global order.

"The Cisco 642-832 exam is one of the three required exams for the Cisco CCNP Certification. Passing this exam in conjunction with the ROUTE and SWITCH exams will earn you the CCNP (Cisco Certified Network Professional) certification, which is an excellent validation that you are knowledgeable about the most current Cisco software and best practices. This course will teach you the basics of troubleshooting and walk you through several scenarios to put these methods to the test."--Resource description page.
