LTL Less-than-Truckload Shipping | Schneider
Less-than-truckload shipping or less than load is the transportation of relatively small freight. The alternatives to LTL carriers are parcel carriers or full truckload carriers. Parcel carriers usually handle small packages and freight that can be broken down into units less than 150 pounds. Full truckload carriers move freight that is loaded into a semi-trailer. Semi-trailers are typically between 26 and 53 feet and require a substantial amount of freight to make such transportation economical

Less-than-truckload, also known as less-than-load (LTL), is a shipping service for relatively small loads or quantities of freight—between 150 and 15,000 pounds. An LTL provider combines the loads...

Less-Than-Truckload (LTL) Definition - Investopedia
What is Less Than Truckload or LTL? LTL shipments weigh from 150 lbs all the way up to 15,000 lbs and don't take up the whole space in the truck. Since your shipment alone won't need a full 48-foot or 53-foot trailer to transport, it is usually combined with other shipments from your carrier's other customers and you only pay for the space you take up in the truck.
