The Collins College Outline for United States History from 1865 follows the key moments and players in American history from the Civil War Reconstruction period to the record high gas prices and low presidential poll numbers of 2006, with information on politics, disasters, crimes and scandals, social issues, pop culture, and more. This guide also contains appendixes on the territorial expansion and admission of states into the Union, the population of the United States, and a timeline of presidents and secretaries of state. Completely revised and updated by Dr. John Baick, this book includes a test yourself section with answers and complete explanations at the end of each chapter. Also included are bibliographies for further reading, as well as numerous vocabulary lists, exercises, and examples. The Collins College Outlines are a completely revised, in-depth series of study guides for all areas of study, including the Humanities, Social Sciences, Mathematics, Science, Language, History, and Business. Featuring the most up-to-date information, each book is written by a seasoned professor in the field and focuses on a simplified and general overview of the subject for college students and, where appropriate, Advanced Placement students. Each Collins College Outline is fully integrated with the major curriculum for its subject and is a perfect supplement for any standard textbook.

A history textbook which discusses the development of America from 1865 to the present.

Offers advice about taking multiple choice and essay CLEP examinations; describes each subject on the test, including English, foreign languages, and history; and aids in the interpretation of scores.

In this combined edition, the full content of volumes 1 and 2 of Thomas Kidd ' s American History are brought together in a single, accessible textbook. This sweeping narrative spans the full scope of American history from the first Native American societies to the political and cultural struggles of contemporary times. In clear, readable prose, and with attention to well-known and more obscure figures from American history, Kidd gives a robust account of the events, people, and ideas that gave shape to our nation. Students will come away from American History well-informed, and better prepared to wrestle with the political and cultural changes that have dramatically transformed contemporary American life. Praise for American History " Thomas Kidd has succeeded well in providing a high quality American history text that integrates the usual political and social history with its religious dimensions. " —George Marsden, professor of history emeritus, University of Notre Dame " Thomas Kidd explores the entirety of American history in this carefully researched and clearly written text. It is an ideal book for students new to American history as well as for older readers who would like a sprightly, objective, and discerning refresher. " —Mark Noll, professor of history emeritus, University of Notre Dame, and research professor of history, Regent College

All aspects of early U.S. history are covered in this informative outline created specifically for the over 500,000 students enrolled in U.S. history courses each year.

The newly updated edition of this book makes a fine supplement to a college survey course in American history. It opens with the Reconstruction era following the Civil War, then goes on to chronicle the pivotal events of the late nineteenth- and entire twentieth century. It summarizes events surrounding U.S. entry into two World Wars, the Great Depression of the 1930s, the Korean and Vietnam conflicts, the Civil Rights movement, and major events leading to the growth of the United States into the world's leading superpower. All significant events and personalities are briefly summarized under boldfaced topic heads. Review questions appear at the end of each chapter, with answers at the back of the book. Appendixes include suggestions for essay questions, quick-check fact lists, a recommended reading list, and a short-entry dictionary of historical terms.

The Oxford History of the United States is the most respected multivolume history of the American nation. In the newest volume in the series, The Republic for Which It Stands, acclaimed historian Richard White offers a fresh and integrated interpretation of Reconstruction and the Gilded Age as the seedbed of modern America. At the end of the Civil War the leaders and citizens of the victorious North envisioned the country's future as a free-labor republic, with a homogenous citizenry, both black and white. The South and West were to be reconstructed in the image of the North. Thirty years later Americans occupied an unimagined world. The unity that the Civil War supposedly secured had proved ephemeral. The country was larger, richer, and more extensive, but also more diverse. Life spans were shorter, and physical well-being had diminished, due to disease and hazardous working conditions. Independent producers had become wage earners. The country was Catholic and Jewish as well as Protestant, and increasingly urban and industrial. The "dangerous" classes of the very rich and poor expanded, and deep differences -- ethnic, racial, religious, economic, and political -- divided society. The corruption that gave the Gilded Age its name was pervasive. These challenges also brought vigorous efforts to secure economic, moral, and cultural reforms. Real change -- technological, cultural, and political -- proliferated from below more than emerging from political leadership. Americans, mining their own traditions and borrowing ideas, produced creative possibilities for overcoming the crises that threatened their country. In a work as dramatic and colorful as the era it covers, White narrates the conflicts and paradoxes of these decades of disorienting change and mounting unrest, out of which emerged a modern nation whose characteristics resonate with the present day.
