~~Valuing Capital
Investment
Projects — Case
Solution~~

In order to
calculate the
value of

Access Free Valuing Capital

required capital
for investing on
new projects,
the management
will calculate
first the net
present value of
the project,
which is \$100000
(the difference
of net present
value of the
project and
investment cost.

Access Free Valuing Capital Investment

After calculating the required capital, the management of the company will use the calculated required capital value in the calculation of number of share issued.
