Meet Clara Andrews... Your new best friend! With a love of cocktails and wine, a fantastic job in the fashion industry and the world's greatest best friends, Clara Andrews thought she had it all. That is until a chance meeting introduces her to Oliver, a devastatingly handsome American designer. Trying to keep the focus on her work, Clara finds her heart stolen by lavish restaurants and luxury hotels. As things get flirty, Clara reminds herself that inter-office relationships are against the rules, so when a sudden recollection of a work's night out leads her to a gorgeous barman, she decides to see where it goes. Clara soon finds out that dating two men isn't as easy as it seems... Will she be able to play the field without getting played herself? Join Clara, as she finds herself landing in and out of trouble, re-affirming friendships, discovering truths and uncovering secrets.

First published in 1202, Fibonacci's Liber Abaci was one of the most important books on mathematics in the Middle Ages, introducing Arabic numerals and methods throughout Europe. This is the first translation into a modern European language, of interest not only to historians of science but also to all mathematicians and mathematics teachers interested in the origins of their methods.

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

"Book one of the After series--the Internet sensation with millions of readers. Tessa didn't plan on meeting Hardin during her freshman year of college. But now that she has, her life will never be the same"--

What if the perfect world wasn't built for you? Welcome to QualityLand, the best country on Earth. Here, a universal ranking system determines the social advantages and career opportunities of every member of society. An automated matchmaking service knows the best partners for everyone, and helps with the break up when your ideal match (frequently) changes. And the foolproof algorithms of the biggest, most successful company in the world, TheShop, know what you want before you do and conveniently deliver to your doorstep before you even order it. In QualityCity, Peter Jobless is a machine scrapper who can't quite bring himself to destroy the imperfect machines sent his way, and has become the unwitting leader of a band of robotic misfits hidden in his home and workplace. One day, Peter receives a product from TheShop that he absolutely, positively knows he does not want, and which he decides, at great personal cost, to return. The only problem: doing so means proving the perfect algorithm of TheShop wrong, calling into question the very foundations of QualityLand itself. Qualityland, Marc-Uwe Kling's first book to be translated into English, is a brilliantly clever, illuminating satire in the tradition of Kurt Vonnegut, Douglas Adams, and George Orwell that offers a visionary, frightening, and all-too funny glimpse at a near future we may be hurtling toward faster than it's at all comfortable to admit. So why delay any longer? TheShop already knows you're going to love this book. You may as well head to the cash register, crack the covers, and see why that is for yourself.
