Identifying Vintage Wrangler and Lee Jeans. 1. Wrangler – search for bells! Blue bell is the distinctive mark of vintage Wrangler jeans. Look for blue bell tag on the inside of fly and bell etched into back pocket patch for your successful vintage denim shopping. 2. Lee – look at the buttons!

Vintage Denim Shopping Guide: How to Find the Best Vintage ...

Lee made these for the military in WWI, and after the war they expanded their clothing inventory. In the 1920s they added a cowboy pant made of denim – blue jeans. As time went on the company geared its advertising and products toward the cowboy trade. After WWII, Lee began to market their jeans not just as work clothes, but as fashion items. They made a jeans just for women, the Lady Lee Rider.

Lee Jeans (leejeans) | Official Pinterest account

your guide to vintage denim You probably know this, but what's en vogue does change with the times. Back in the day, most American-made jeans were crafted with a higher waist, a looser and more voluminous pant leg, and high-quality, substantial and sturdy denim that tends to not have a lot of, if any, stretch to it.

\$20,000 for an old pair of Levis????!!! Learn the secrets of the vintage mens clothes market. This guide to vintage denim & men's clothes aids in the identification, buying, pricing, and selling of vintage Levi's, Lees, Wranglers, Hawaiian shirts, work wear, flight jackets, Nike tennis shoes, and motorcycle jackets. This is a basic, short guide,(11 pages of text and 5 picture pages) for the beginning collector or dealer. This is not a history book just the facts. You will find this guide to contain very useful information that you can build on in your quest for these rare and cool items. This is not a polished coffee table book, just simple facts.

Most take for granted that a pair of jeans is not considered complete without patches, rivets, buttons, and other trims. The existence of such design elements is not questioned because they are seen as the standard. Nick Williams's book is exclusively dedicated to denim branding and deconstructs every element that goes into branding a pair of jeans. These elements are a jeans' identity, its source code, a marker from which to discover the jean's provenance. Through beautiful and inspirational photography, this book tells the fascinating and sometimes surprising history of denim branding from the 1870s to current day. Primary source materials for this book come from the historical archive departments of Levi Strauss & Co., Lee Jeans, Wrangler, Carhartt, and Cone Mills, as well as some of the best contemporary denim brands of today, including Rogue Territory, Dawson Denim, Denham, Kings of Indigo, Endrime, Evisu, Eat Dust, Butcher of Blue, and Tellason.

In this expansive book, over 425 different shirts are displayed in clear color photographs along with an historical text, women's clothing, 20 different button styles, and-for the first time-229 researched manufacturer's and retail labels which help to date and identify the shirts. The success story of aloha shirts, primarily of the 1935 to 1965 era, is woven with the words of the people who themselves created and witnessed the development of this Hawaiian classic.

Featuring more than five thousand color photographs for easy identification, this definitive guide to a wide range of collectibles provides up-to-date values for items ranging from Barbie dolls, ceramics, Americana, and autographs to sports memorabilia, advertising items, jewelry, toys, and textiles. Original.

Look closely at any typically "American" article of clothing these days, and you may be surprised to see a Japanese label inside. From high-end denim to oxford button-

downs, Japanese designers have taken the classic American look-known as ametora, or "American traditional"-and turned it into a huge business for companies like Uniqlo, Kamakura Shirts, Evisu, and Kapital. This phenomenon is part of a long dialogue between Japanese and American fashion; in fact, many of the basic items and traditions of the modern American wardrobe are alive and well today thanks to the stewardship of Japanese consumers and fashion cognoscenti, who ritualized and preserved these American styles during periods when they were out of vogue in their native land. In *Ametora*, cultural historian W. David Marx traces the Japanese assimilation of American fashion over the past hundred and fifty years, showing how Japanese trendsetters and entrepreneurs mimicked, adapted, imported, and ultimately perfected American style, dramatically reshaping not only Japan's culture but also our own in the process.

From natural areas and historic areas in and around Philadelphia to the Amish markets of Lancaster County, and much more, this guide offers great guidance for this fascinating region. From natural areas and historic areas in and around Philadelphia to the Amish markets of Lancaster County; from historic battlefields at Valley Forge and Gettysburg to the antiques shops of Bucks County and the leisure resorts and quiet nature trails of the Pocono Mountains, this guide offers great guidance for this fascinating region. Areas covered are all within easy driving distance of most East Coast states.

Offers tips for finding stores that sell high-quality used clothes and for choosing garments that are a good value

Denim jeans, perhaps the most ubiquitous article of clothing to be found in the world today, did not always enjoy such widespread appeal. Prior to the 1950's, denim was largely worn by the working classes, be it farmers, construction or factory workers as a durable, utilitarian fabric that held up well to the elements. This book pieces together finds from all eras and brands to stitch together a picture not only of the history of denim, but also often the histories of their wearers.
