Forex Price Action Scalping provides a unique look into the field of professional scalping. Packed with countless charts, this extensive guide on intraday tactics takes the reader straight into the heart of short-term speculation. The book is written to accommodate all aspiring traders who aim to go professional and who want to prepare themselves as thoroughly as possible for the task ahead. Few books have been published, if any, that take the matter of scalping to such a fine and detailed level as does Forex Price Action Scalping. Hundreds of setups, entries and exits (all to the pip) and price action principles are discussed in full detail, along with the notorious issues on the psychological side of the job, as well as the highly important but often overlooked aspects of clever accounting. The book, counting 358 pages, opens up a wealth of information and shares insights and techniques that are simply invaluable to any scalper who is serious about his trading.

This publication aims to fill the void between books providing an introduction to derivatives, and advanced books whose target audience are members of quantitative modelling community. In order to appeal to the widest audience, this publication tries to assume the least amount of prior knowledge. The content quickly moves onto more advanced subjects in order to concentrate on more practical and advanced topics. "A master piece to learn in a nutshell all the essentials about volatility with a practical and lively approach. A must read!" Carole Bernard, Equity Derivatives Specialist at Bloomberg "This book could be seen as the 'volatility bible!'" Markus-Alexander Fleisch, Head of Sales & Marketing at Eurex "I highly recommend this book both for those new to the equity derivatives business, and for more advanced readers. The balance between theory and practice is struck At-The-Money" Paul Stephens, Head of Institutional Marketing at CBOE "One of the best resources out there for the volatility community" Paul Britton, CEO and Founder of Capstone Investment Advisors "Colin has managed to convey often complex derivative and volatility concepts with an admirable simplicity, a welcome change from the all-too-dense tomes one usually finds on the subject" Edmund Shing PhD, former Proprietary Trader at BNP Paribas "In a crowded space, Colin has supplied a useful and concise guide" Gary Delany, Director Europe at the Options Industry Council

In this 1931 Wall Street classic, author and noted economist Humphrey B. Neill explains not only how to read the tape, but also how to figure out what ' s going on behind the numbers. Illustrated throughout with graphs and charts, this book contains excellent sections on human nature and speculation and remains a classic text in the field today.

Many traders go around searching for that one perfect trading strategy that works all the time in the global FOREX (foreign exchange/currency) market. Frequently, they will complain that a strategy doesn't work. Few people understand that successful trading of the FOREX market entails the application of the right strategy for the right market condition. 7 Winning Strategies For Trading Forex covers: - Why people should be paying attention to the FOREX market, which is the world's largest and most liquid financial market - How understanding the structure of this market can be beneficial to the independent trader - How to overcome the odds and become a successful trader - How you can select high-probability trades with good entries and exits. Grace Cheng highlights seven trading strategies, each of which is to be applied in a unique way and is designed for differing market conditions. She shows how traders can use the various market conditions to their advantage by tailoring the strategy to suit each one. This revealing book also sheds light on how the FOREX market works, how you can incorporate sentiment analysis into your trading, and how trading in the direction of institutional activity can give you a competitive edge in the trading arena. This invaluable book is ideal for new and current traders wanting to improve their trading performance. Filled with practical advice, this book is a must-read for traders who want to know exactly how they can make money in the FOREX market.

Price action trading strategy is the ability to actually read a chart of any assets, whether you trade forex or whether you trade future stocks option it doesn't matter, because the ability to actually read a chart separates the winners from the losers. And when i say read a chart, what I mean is, in other for you to find success trading price action, you have to have a crystal clear chart. Price action is simply the best method to help traders catch the turning points, meaning that it's a very good strategy to help you forecast the starting point of a trend before the trend actually starts. In price action trading strategy the stop are clearly visible for you, the location or proper location on where to place stops when it comes to managing a risk, is simply the most recent swing low to the to the left of your entry. when you read further it will become crystal clear to you what price action trading strategy is all about, and how to master them. In this guide you will learn a lot of things such as: Breakout trading strategy and how they workTrend trading strategy and how they workPrice action trading strategy and how they workSupply and demand trading strategy and they workOrder flow trading strategy and how they work, and many moreSo what are you still waiting for just one click will convince you. Have a wonderful time reading.

Are you intimidated by day trading? Think it's only for the select few who are savvy with stocks or are financial savants? Well, think again, because anyone can master day trading--and once you learn the basic techniques, it's possible to make a boatload of money! The flip side: if you don't know what you're doing, you can lose your shirt. In this entry-level guide to day trading, MarketWatch columnist and financial journalist Michael Sincere assumes you know nothing. Zip. Zero. Inside, he shows you how to get started and breaks day trading down by clearly explaining: What computer equipment you'll need How much money is required The technical jargon of day trading Key strategies you'll employ while trading How you can manage risk Most important, Sincere lets you in on the biggest secret of all: how to master the mind game of day trading. Thousands of day traders have watched their bank accounts balloon thanks to Wall Street. Now you can get into the market and enter their coveted ranks.

Price action trading strategy is the ability to actually read a chart of any assets, whether you trade forex or whether you trade future stocks option it doesn't matter, because the ability to actually read a chart separates the winners from the losers.
