Underground water is being pumped so aggressively around the globe that land is sinking, civil wars are being waged, and agriculture is being transformed.

~~What You Need to Know About the World's Water Wars~~

The water privatisation in England and Wales involved the transfer of the provision of water and wastewater services in England and Wales from the state to the private sector in 1989, through the sale of the ten regional water authorities (RWA). The potable water supply as well as the sewerage and sewage disposal functions of each RWA were transferred to privately-owned companies.

~~Water Wars: Privatization, Pollution And Profit, Shiva ...~~

Water conflict is a term describing a conflict between countries, states, or groups over the rights to access water resources. The United Nations recognizes that water disputes result from opposing interests of water users, public or private. A wide range of water conflicts appear throughout history, though rarely are traditional wars waged over water alone.
