In my travels across the country, the question asked most frequently is how I went from being a fundamentalist preacher to being a developer of healing techniques using tuning forks. This book is the story of that journey. I feel honored yet humbled to be among those rising to the call to facilitate the new 5th Dimensional energy coming into our third dimensional time/space continuum. Come with me as we journey step by step through my search for answers. After looking at what I refer to in this book as my Fork in the Road, a new truth was born a truth that provides answers for the Spirit, Mind, and Body. I will share information concerning self-healing using sound, vibration, and frequencies that can clear, cleanse, balance, and focus our lives in all its forms. The ancient Solfeggio frequencies are part of a process that can assist us in creating the possibility of lives without stress, illness, and sickness. Together we will go to the cutting edge of scientific discoveries regarding sound and healing. This book is also a call for Lightworkers to gather in this crucial time of change and transformation on the planet. Join me and others who do not live in fear of the future. Just tune your inner ear and listen to these wonderful new ideas as I share the techniques of working with sound and, more specifically, the Solfeggio tuning forks. My hope is that we can all find the harmonics of our own individual music, and that through this process we will be enabled to live balanced lives.

"This book shows how the 9 ancient Solfeggio frequencies were encoded in the King James Version Bible in 1611. These frequencies have been associated with miracles, human awakenings, and with time and space. The noted frequencies interplay with the 432 Hertz frequency scale, the Sumerian King's List, with Hindu and Mayan time [s]ystems, and the book shows how they relate to time travel in our reality." -- back cover.

Since 1991, Dr. Mitchell Gaynor has been achieving remarkable results by integrating music, vocalization, breathing, and meditation techniques in his work with patients. In The Healing Power of Sound, he presents his sound-based techniques for self-healing—techniques that anyone can use, whether faced with a life-threatening disease or simply seeking relief from the stresses of daily life. Numerous studies have demonstrated the health benefits of music: it can lower blood pressure and heart and respiratory rates; reduce cardiac complications; increase the immune response; and boost our natural opiates. Gaynor shows how, when integrated as part of a mind-body-spirit approach to wellness, music can play a significant part in maintaining a healthy lifestyle or in healing serious disease. The Healing Power of Sound includes twelve exercises involving breathing, meditation, and "toning"—using pure vocal sound to resolve tension, release emotion, and spur the healing process—that can be used by anyone to improve health and quality of life.

Explore the intricate patterns, symmetry and energy of the ancient Earthly Solfeggio Frequencies, the pitch frequencies used in the Ancient Gregorian Chants. The Solfeggio Coloring Book/Activation Guide is a powerful tool to awaken our consciousness. By awakening our consciouness we awaken and reconnect our DNA to carry information, light and energy. As this happens, corrections and adjustments in the electrical fields that have been out of balance occur, and the whole body benefits from a re-alignment with our original DNA (blue print). Each Mandala gives a special activation for the person or life form receiving it and works completely in Divine Integrity. Angels = Color = Frequency = Geometry = Solfeggio = Language of Light

The Sirian Solfeggio Frequencies in combination with Mandala's are a powerful tool to connect with the supportive energy of the Starseeds & the energies of the constellation of Sirian. Take the journey into to the light and transform your connection with your true self.

In The Sonic Episteme Robin James examines how twenty-first-century conceptions of sound as acoustic resonance shape notions of the social world, personhood, and materiality in ways that support white supremacist capitalist patriarchy. Drawing on fields ranging from philosophy and sound studies to black feminist studies and musicology, James shows how what she calls the sonic episteme—a set of sound-based rules that qualitatively structure social practices in much the same way that neoliberalism uses statistics—employs a politics of exception to maintain hegemonic neoliberal and biopolitical projects. Where James sees the normcore averageness of Taylor Swift and Spandau Ballet as contributing to the sonic episteme's marginalization of nonnormative conceptions of gender, race, and personhood, the black feminist political ontologies she identifies in Beyonc \u00e9 's and Rihanna's music challenge such marginalization. In using sound to theorize political ontology, subjectivity, and power, James argues for the further articulation of sonic practices that avoid contributing to the systemic relations of domination that biopolitical neoliberalism creates and polices.

Discover the sophisticated patterns, geometry, balance and energy of the Universal Solfeggio Frequencies. As one is able to access higher (faster) Universal Frequencies one is able to access Divine consciousness. The Universal Solfeggio Frequencies in combination with Mandala's are a new and powerful tool to connect with the creative energy of the universe in an entirely new way. Take the journey into to the light and transform your connection with your true self. Each Mandala gives a special activation for the person or life form receiving it and works completely in Divine Integrity. Angels = Color = Frequency = Geometry = Solfeggio = Language of Light

How did castrati manage to amaze their eighteenth-century audiences by singing the same aria several times in completely different ways? And how could composers of the time write operas in a matter of days? The secret lies in the solfeggio tradition, a music education method that was fundamental to the training of European musicians between 1680 and 1830 a time during which professional musicians belonged to the working class. As disadvantaged children in orphanages learned the musical craft through solfeggio lessons, many were lifted from poverty, and the most successful were propelled to extraordinary heights of fame and fortune. In this first book on the solfeggio tradition, author Nicholas Baragwanath draws on over a thousand manuscript sources to reconstruct how professionals became skilled performers and composers who could invent and modify melodies at will. By introducing some of the simplest exercises in scales, leaps, and cadences that apprentices would have encountered, this book allows readers to retrace the steps of solfeggio training and learn to generate melody by 'speaking' it like an eighteenth-century musician. As it takes readers on a fascinating journey through the fundamentals of music education in the eighteenth century, this book uncovers a forgotten art of melody that revolutionizes our understanding of the history of music pedagogy.
