There's not a lot of agreement about what an out of body experience actually is. Some people see it as a spiritual or paranormal experience in which some part of your being literally leaves your body, while others believe it's purely a neurological phenomenon. It's up to you to decide if your personal experience feels genuine and legitimate to you.

An out-of-body experience (OBE or sometimes OOBEx) is a phenomenon in which a person perceives the world from a location outside their physical body. An OBE is a form of autoscopy (literally "seeing self"), although this term is more commonly used to refer to the pathological condition of seeing a second self, or doppelgänger.

This book "While Out of My Body, I Saw God, Hell and Living Dead" has been able to fill in a lot holes that other testimonies could not or could not due to limited time. Also in my research I found a lot of Hellish Experiences were testimonies about people who found themselves deep inside the Earth.
