In design, “white space” is negative space. It ’ s not blank space because it has a purpose. It is balancing the rest of the design by throwing what is on the page (or the screen) into relief. The white space helps focus your visual attention. Now let ’ s expand this concept of white space beyond the world of graphic design.

Interaction Design Foundation ...

White space or negative space is simply unmarked space in the design. It is the space between the layouts, lines of paragraphs, between paragraphs, between different UI elements and so on. White space does not literally mean an empty space with a white background. It can be of any color, texture, patterns or even a background image.
