Myths that explores both what we know and how we know it.

This is a sociological study of the way in which women and their 'gossip' was viewed in the period between 1880 to 1960. It asks why specifically working class women are seen as gossips, tracing the stereotyped meanings and prejudices attached to the word. Other communication aspects are also examined.

This book addresses the fact that Americans tend to live under a considerable amount of stress, tension, and anxiety, and suggests that humor can be helpful in alleviating their distress. It posits that humor is a useful placebo in this regard; cites studies that show that humor moderates life stress; considers

the relationship of religion and humor, especially as means to alleviate anxiety; proposes that Jesus had a sense of humor; suggests that his parable of the Laborers in the Vineyard has humorous implications for the relief of occupational stress; explores the relationship of gossip and humor; and suggests that Jesus and his disciples were a joking community. It concludes that Jesus viewed the kingdom of God as a worry-free existence.

"We are witnessing a new surge of interpersonal and institutional violence against women, including new witch hunts. This surge of violence has occurred alongside an expansion of capitalist social relations. In this new work that revisits some of the main themes of Caliban and the

Witch, Silvia Federici examines the root causes of these developments and outlines the consequences for the women affected and their communities. She argues that, no less than the witch hunts in sixteenth- and seventeenth-century Europe and the "New World," this new war on women is a structural element of the new forms of capitalist accumulation. These processes are founded on the destruction of people's most basic means of reproduction. Like at the dawn of capitalism, what we discover behind today's violence against women are processes of enclosure, land dispossession, and the remolding of women's reproductive activities and subjectivity. As well as an investigation into the causes of this new violence, the book is also a feminist call to arms. Federici's work

Provides new ways of understanding the methods in which women are resisting victimization and offers a powerful reminder that reconstructing the memory of the past is crucial for the struggles of the present."

Here the author provides a new way of examining sociolinguistic variation. Using a sample from 33 speakers of English in Glasgow, he offers a new methodological paradigm to an audience of sociolinguists and others concerned with discourse analysis.

Based on a workshop between clergy members of the United Methodist Church, 'But They Won't Talk With a Woman' focuses on justice issues between male and female clergy, relying on the personal experiences of the participants, as well as their

Reflections from points made in the book, *Women's Growth in Connection* by Judith V. Jordan, et. al. In this book, the group posits that unless injustices that female clergy are subjected to in their daily lives are changed, the Church may potentially be destroyed. Topics covered include the abuse of power by men over women, traditional gender roles, biblical interpretations of these roles, and communication between men and women.

A searing and fearless anthology of essays exploring the profound impact of money on women 's lives, edited by prominent feminist and writer Rebecca Walker. *Women Talk Money* is a groundbreaking collection that lifts the veil on what women talk about when they talk about money; it

unflinchingly recounts the power of money to impact health, define relationships, and shape identity. The collection includes previously unpublished essays by trailblazing writers, activists, and models, such as Alice Walker, Tressie McMillan Cottom, Rachel Cargle, Tracy McMillan, Cameron Russell, Sonya Renee Taylor, Adrienne Maree Brown, and more, with Rebecca Walker as editor. In this provocative anthology, we discover a family that worships money even as it tears them apart; we read about the “ financial death sentence ” a transgender woman must confront to live as herself. We trace the journey of a Silicon Valley entrepreneur who finally makes enough money to discover her spiritual impoverishment; we follow a stressful email exchange between an

unsympathetic university financial officer and a desperate family who can't afford to pay their daughter's tuition, and more. This collection is a clarion call to conduct honest conversations that demystify and transform the role money plays in our lives. Dazzlingly resonant and deeply familiar, *Women Talk Money* is a revelation.

A critique of conventional approaches to communication research, the authors argue that the impact of gender on research practices has been ignored. By exploring gender issues, and conducting applied research in the areas of mass and interpersonal communication, therapeutic interaction, and rhetoric, they critique traditional scholarship and offer novel alternatives. The authors take intact

theories and methods and show their applicability (or lack thereof) to the study of women's communication. The adaptations allow researchers to conduct more accurate, sensitive, and theoretically sound analyses of womens' communication than those promoted by traditional paradigms.

Women, womyn & womxn: Are they really nasty? This collection contains humour and pathos; it an easy read, despite being academically grounded and completely relevant. Wonderful doodles at the start of each essay soften the page. This is a want-to-read book on an extremely important topic. In South Africa the Fallist movement became an extremely important platform to discuss gender, while #metoo has become a global phenomenon. Ashanti Kunene, a

Fallist-leader, is one of the contributors. Other essays include “ Pussies are not for grabbing ” (Joy Watson), “ My arms are tired of holding this sign ” (Amanda Gouws), “ Oh, no you can ’ t go to heaven in a broke down car ” (Anastasia Slammat), “ I ’ m with her ” (Zama Khanyile), “ To Womb it may concern ” (Christi van der Westhuizen), “ Womb with a (very strong) view ” (Helen Moffet) and “ Diary of an Indian woman ” (Aarti Narse); but there are many more – twenty eight in total. The idea for the collection was born, cradled and nurtured between friends who wanted to create a space for writing and thinking about the marches. The group of feminists who contributed to this collection used the marches and the posters inspired by the marches as a vehicle which galvanised women

into action to put pen to paper and show fervour for ongoing feminist activism. The nexus of this beautifully written and evocatively illustrated collection is telling narratives that link very personal stories with deeply political issues. These are the stories told by nasty women who are making the personal political, who are seeking to live their lives in ways that resist and challenge patriarchy. Through their very intimate nature these are stories that speak to the creation of a different kind of social order, one based on equity, the promotion of human rights and social justice. The presidential campaign in the USA grabbed the global imagination. It also grabbed the feminist imagination, presenting the hope that if a woman could become the president of the USA, women throughout the world

would finally break through the reinforced glass ceiling. However, when it didn ' t happen, the lost opportunity became the metaphorical kick in the feminist gut on a global scale. Through the subsequent misogyny, vulgarity, lewd comments, the pussy grabbing video, and the threats of the erosion of feminist activism in the trenches, worldwide a deep mourning arose from the feminist community. It was the name calling of “ nasty women ” that really smarted. Initial feelings of anger gave rise to empowerment of women — those who talk back to patriarchy — to embrace the label of “ nasty women ” .
